Yamuna Devi

FRONTEND DEVELOPER

OBJECTIVE

Frontend Web Developer with **4 years of experience** building scalable and responsive web applications. Specialized in **Angular** with working knowledge of **React** and **Flutter**. Skilled at creating dynamic UIs, integrating **REST APIs/JSON**, and applying **SQL** for backend data handling. Passionate about delivering user-friendly applications with clean code and strong performance.

EXPERIENCE

Client: National Informatics Centre, Govt. of India

AKAL INFORMATION SYSTEMS OCT 2021 – SEPT 2022

- Developed and maintained Angular applications for government projects.
- Participated in code review meetings, providing input on bugs, inefficiencies and potential solutions to emergent issues.
- Implemented **dynamic multi-step forms** with Angular Material stepper
- Migrated legacy code from older versions of Angular to newer ones.

SILVERTOUCH TECHNOLOGIES LTD. OCT 2022 - CURRENT

- Implemented authentication and authorization using **JSON Web Tokens** and Collaborated with backend developers to integrate RESTful APIs into the application.
- Integrated UI elements such as tables, forms and other interactive features into the application using **Angular Material**.
- Debugged and resolved errors related to client-side scripting of the application using **Chrome Angular devtools** and **VS code debugger**.
- Implemented **routing guards (AuthGuard, RoleGuard)** to secure routes and control user access.
- Configured **lazy loading** modules to improve application performance and reduce initial load time.
- Utilized **RxJS** library for reactive programming within the application. Built **reusable components** that could be used across different projects or applications.
